

In 2018 the Ministry for Education and Employment has embarked on an extended 'I Choose' initiative, targeting year 10 and year 11 students. This is another opportunity whereby our students can explore further career options as they leave compulsory education. Our aim is to enable our students to make informed choices about their future.

This year 'I Choose' was split in four events throughout the year:

- Career awareness week in March. Employers across industries and sectors were invited to participate. Organised groups from all schools visited the fair.
- Also in March 'I Choose' event which focused on the opportunities available in Gozo;
- The two upcoming events will take place in July. All post-secondary institutions will be hosted under one roof. The students will also be offered the opportunity to seek one-to-one guidance from the career guidance practitioners who will be available throughout the event. The programme also includes the possibility for both students and parents to attend different talks which will be delivered by professionals in various related fields.

Call on 9991 4356 to book an appointment with a career guidance practitioner.
